

Analysis tools

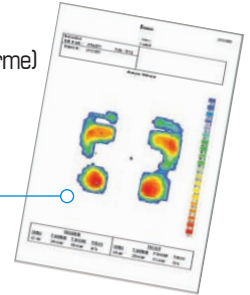

Press-Cam V3.0

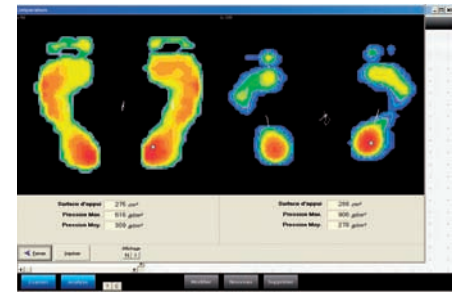

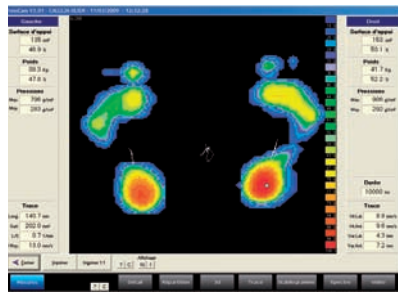

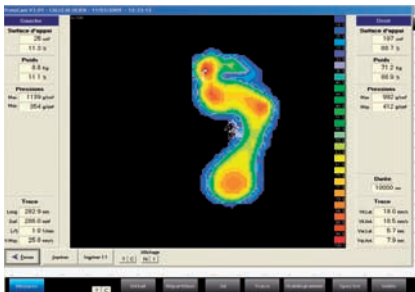

Developed for SIDAS, this concept enables professionals to combine for the first time a pressure plate and a webcam using the same software. The Press-Cam is designed for static, dynamic and posturology analysis. All analysis are registered in your computer.

- ◆ PC
- ◆ Windows XP (Home ou Pro), 2000
Windows 7 and Vista
- ◆ Minimum 512 MB RAM
- ◆ 2 USB ports (1 for the webcam and 1 for the plateforme)
