

# Podiatry Grinder

GRINDER G5 *Evolution* CE

1300 mm

700 mm

650 mm

Weight: 123 kg

Motor power output: 1100 W  
Consumption: 1500 W  
Pressure 70 mm H<sub>2</sub>O  
Power supply: 230 V ~ single phase

Speed of rotation: 2850 rpm

Height of grinder axle: 108 cm  
With height extender: 120 cm

Streamlined grinding unit with built-in vacuum cleaner.

2 grinding stations:

- Station 1 on the right [facing the grinder]: manual self-locking mandrel to which the grinder accessories can be fitted.
- Station 2 on the left [facing the grinder]: rubber expanding wheel (Ø 90 mm), 100 mm wide, designed to hold the abrasive belts.

## ADVANTAGES:

- Deep working area: the operator is not restricted by the sides of the grinder.
- Abrasive belts can be changed quickly and easily.
- Requires no cleaning; fitted with a powerful vacuum cleaner.
- Bagless design for easy maintenance (dusts collection drawer)
- Mounted on wheels
- Aspiration holes designed for optimal dust recovery.
- Fast cleaning thanks to vacuum hose.
- Emergency stop safety button.

## Details

All the grinders are delivered with the same accessories of the G4 grinder
